Comatose for 23 years, Belgian feels reborn

Comcast.net News has the interesting story about a Belgian man who was wrongly diagnosed as being in a vegetative state for 23 years. Doctors now believe he had been conscious the whole time, and he is now communicating by typing on a touch-screen keyboard. Read the article at <http://www.comcast.net/articles/news-general/20091123/EU.Belgium.Coma.Recovery/>.
